## FQA

1. Q:Why Φ36mm and Φ50mm skids are not the same high?  
A:Smaller and short skid at the front of camera to reduce the weight and help the camera to move smoothly in long way. Besides, it goes bend small pipe easily.

2. Q:The joystick can manual adjust the focus?  
A:Now it can not adjust the focus, and we are upgrading the system, it is will be available later.
